“There is no risk-free level of exposure to secondhand smoke.”

US Surgeon General Richard H. Carmona

- June 27, 2006

In a comprehensive scientific report published in June 2006, the US Surgeon General reports that even brief secondhand smoke exposure can cause immediate harm.

Nonsmokers exposed to secondhand smoke at home or work increase their risk of developing heart disease by 25 to 30% and lung cancer by 20 to 30%.

Unfortunately nearly half of all nonsmoking Americans are still regularly exposed to secondhand smoke according to the report.

Protect Your Health

Since 2003, **Clean Air for Everyone (CAFE)** Johnson County has published this guide in an effort to help community members who want to limit their own exposure to secondhand smoke. You can also look for this window decal which indicates that an establishment is smoke-free inside.

Who is CAFE?

Clean Air for Everyone (CAFE) Johnson County celebrates its 10th anniversary in 2006.

The member-based, non-profit coalition was formed in 1996 by a group of parents concerned about teen smoking. Since then, CAFE has been working to achieve its goal of eliminating death and disease from tobacco. Our focus is keeping kids from starting to use tobacco, helping tobacco users quit, and educating about the dangers of secondhand smoke.

CAFE's Services to Johnson County

- Annual *Walk for Clean Air*
- Smoke-Free Living Guides
- Tobacco-free Policy Assistance for Worksites
- Educational Presentations for Businesses & Groups
- Tobacco Control Trainings & Forums
- Advocacy at the Local & State Level
- Training and Prevention Activities for Teens

Working toward a tobacco-free Johnson County!

Become a member or make a donation to support our efforts. Fill out the **I Care About Tobacco!** card on page 8 and send it to us.

Membership Benefits

- Monthly Tobacco Control Trainings
- Community Action Workgroups & Events
- Quarterly Newsletters
- Comraderie & Fun
